Stabilization of a workable version

Acceptance of the users

A more clear alignment with eForms

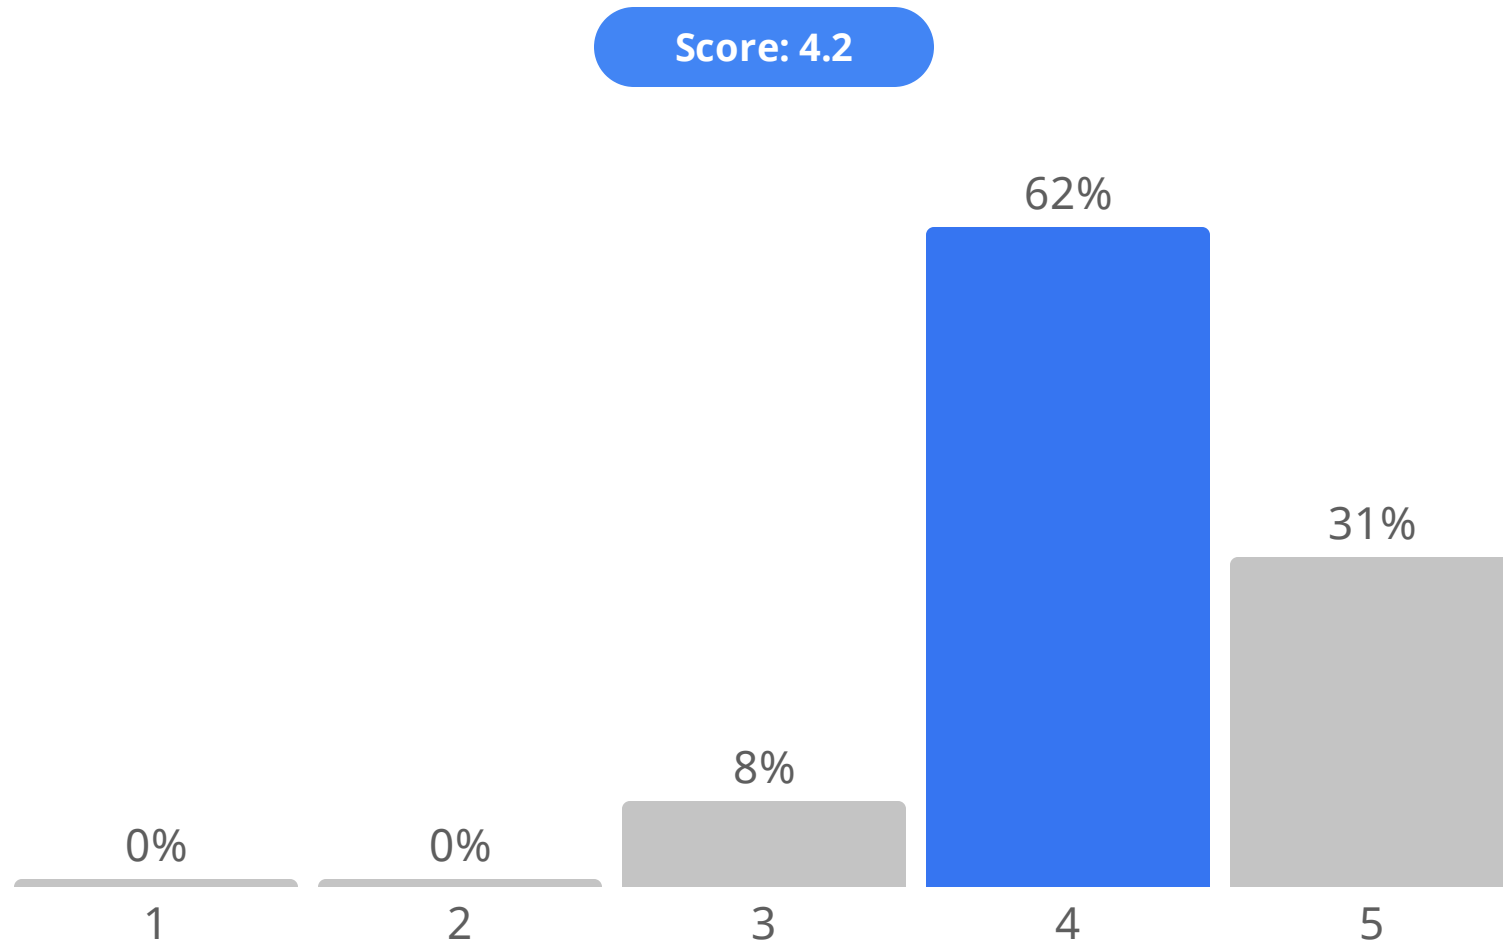

Why did you decide to attend this event?

- To gather additional and up-to-date information.
- I help to maintain the data model
- Since It Is of interest for my Administration
- Project Manager og the InterProc ESPD activity, and for DFØ/Norwegian work on ESPD
- I am interested in developments regarding ESPD.
- Because we have to implemet E-Forms ans ESPD
- Get a status update on ESPD EDM and the plans for next year.
- I'm implementing ESPD version 3.x.x
- implementing ESPD
- To know news about ESPD.
- To get lates information on release schedule

Feedback Survey (2/7)

0 1 3

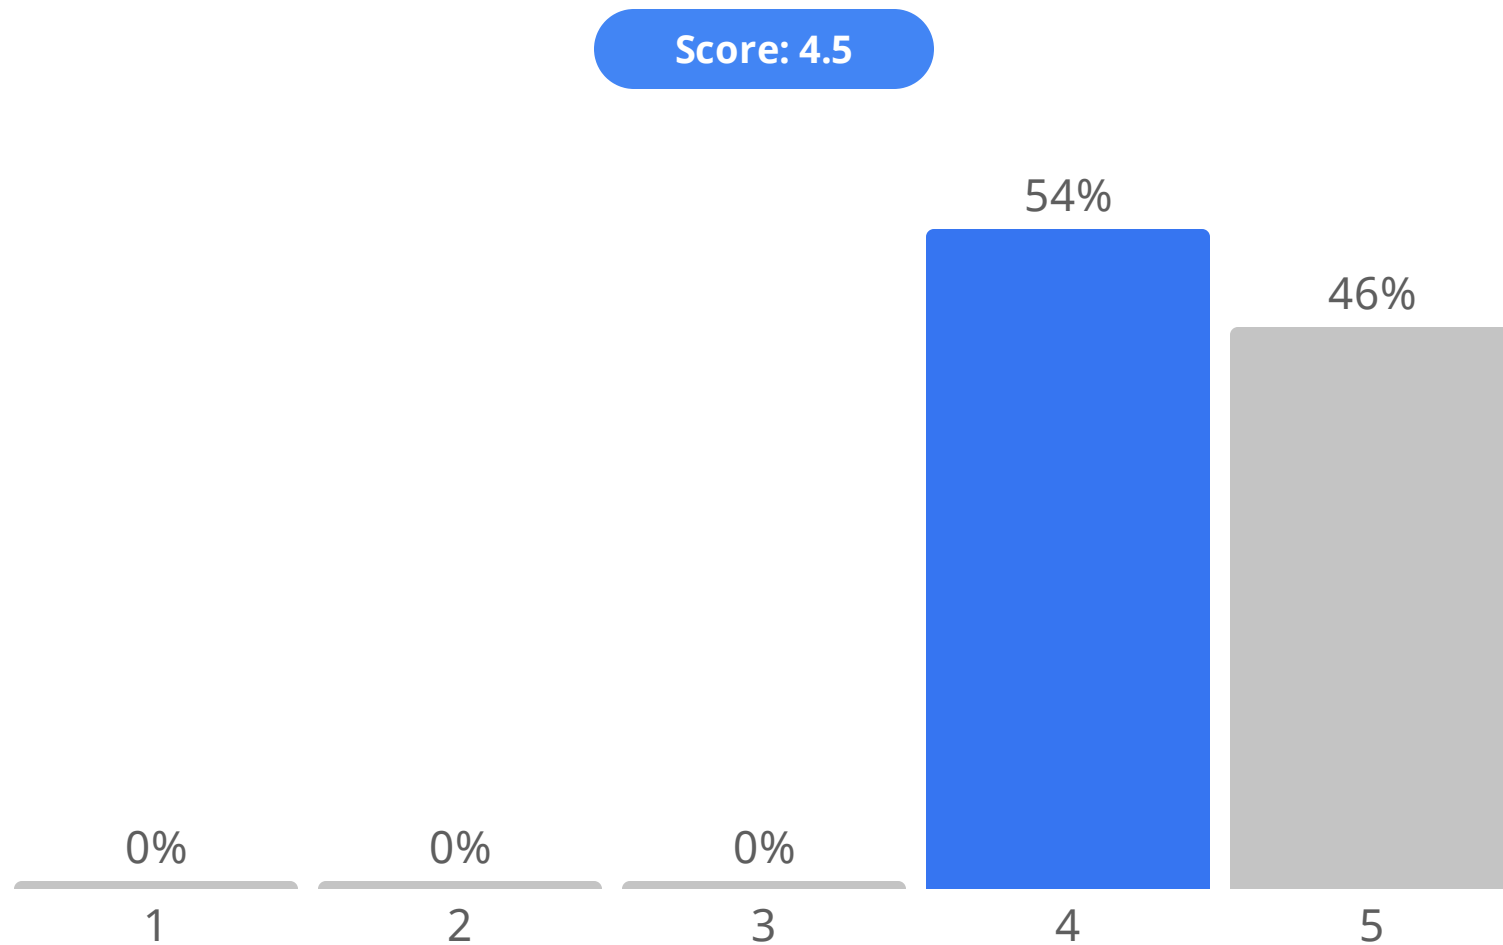

To what degree did the event meet your expectations?

Feedback Survey (3/7)

0 1 3

How satisfied were you with the general organisation of this event?

What did you like most about the event?

- Discussion
- Interaction
- The technical aspects
- There is no need to rush, it is better to wait for the version to stabilize. And there must have been more users of the corresponding version in order to start using it and also then to observe what problems the current users have encountered.
- The vision of the next steps.
- Clearly structured, well timed, slides shared in advance
- The QA.
- alignment of people on where we are and what is coming

Feedback Survey (5/7)

0 1 3

**Are you more likely to attend this kind of event
in person or virtually?**

In person

 8 %

Virtually

 77 %

No opinion

 15 %

Feedback Survey (6/7)

006

How can we improve for next year?

- It is already great.
- No need to cut the cameras when participants put a question. It is nice to know/see each other
- It Is already excellent
- Focus more on the link with eForms, this still is too much of a gray area.
- Stability of requirements and User engagement.
- Have some data on how the implementation of ESDP is going on in each country.

Feedback Survey (7/7)

004

Do you have any other suggestions or feedback you would like to share?

- No
- This project is very well organized (frequent interactions with user community, documentation readily available and frequently updated, ...). Keep up the good work!
- Open this to the day to day users community and have their feedback.
- It would be nice if cameras were turned on, so we can associate

faces with names. Also, a big part of communication is not spoken communication
